**PROVIDING LUXURY FOR LESS SINCE 2017**

# WHO ARE WE?

Worktop Warehouse is a luxury stone worktop specialist offering quartz, granite, and Corian, established in 2017.

We excel in precision measuring and installation of bespoke stone worktops in houses, bars, restaurants, and much more nationwide.

Our collections include firm favourites such as Calacatta, white Stardust, Grey Mirror, Bianco carrera as well as many more beautiful stone ranges.

As a family-run business, we strive to not only provide the highest quality of granite and quartz installations, but to also deliver customer service to match.

The construction and building sector can be hard to navigate, and we aim to meet only the highest standards on every bespoke project we supply.

On top of this, you can expect a super-fast turnaround from templating to installation of your worktops within 7 working days.

# OUR PROMISE

At Worktop Warehouse it is our privilege to give you an exceptional quality product at an unbeatable price.

We take pride in the manufacturing, measuring and installation of everything we offer. We only source our stone from the most trusted suppliers around the world and can transform your kitchen space from the ordinary to the extraordinary.

Our priority is to give you your dream luxury surfaces without a compromise on quality or workmanship.

**WE WON'T BE BEATEN ON ANY  
LIKE-FOR-LIKE ESTIMATE,  
GUARANTEED!**

# A CUT ABOVE THE REST

We are that confident in the quality of our material that we offer a lifetime warranty on our stone.

We have over a decade of experience in the industry, Worktop Warehouse are cut above the rest in every way we use advanced state-of-the-art cutting technology and laser templating machines that are the most accurate in the world.

Allowing our highly skilled Stonemasons to ensure a flawless and accurate installation every time.

We have been transforming properties and are proud to have helped over 5,000 customers achieve their dream finish, whether granite or quartz, and provide luxury for less.

# ELEGANCE IN QUARTZ

Although quartz worktops may look natural, they're not.

These worktops are made from a mix of crushed quartz, polymer resins (which act as a binding agent), and colour pigments.

In this mixture, the percentage of quartz is 93 percent and resin is 7 percent.

The quartz material is extremely hard, second only to precious stones — making it highly durable. They're also scratch, stain, and wear & tear resistant, and easy to clean as well.

The quartz worktop's non-porous properties mean that it is hygienic by design, as the build-up of bacteria is prevented and food can be placed in direct contact with the surface.

Scratch resistance

Bacteria resistance

Stain resistance

Natural juices resistance

Odor resistance

Long lifetime & durability

Waterproof

Cigarette-burn resistance

Made of natural raw materials

# GRANITE

## NATURAL, BEAUTIFUL

Sourced from the lap of the earth, granite is a natural stone that is extremely elegant, hardwearing, and timeless.

It's no surprise that because of this, granite has become one of the most popular products to use for worksurfaces.

It is easy to maintain, hygienic and heat-resistant, and comes in various hues with the most beautiful natural formations.

Granite stone surfaces are a wonderful choice to give any home and office space a touch of luxury; not one slab of granite is the same, which gives every finish a unique beauty.

**300 MILLION YEARS  
IN THE MAKING**

# SINK STYLES

Tie a new design scheme together by choosing from a wide selection of sinks, which offer a focal point to a room as well as an essential functional feature for washing up and food preparation.

## CHOOSING A SINK

### **Undermounted Sinks**

Installed from under the surface of the worktop with a cutout made to the correct size of the bowl.

### **Drainer Grooves**

A beautiful addition to give your worktop a luxury touch.

### **Inset Sinks**

Installed by placement on top of the worktop, inset sinks are generally square in frame and come with a draining board.

### **Belfast Sinks**

Installed under the worktop, but showing the front of the bowl for a more traditional look.

# EDGE PROFILES

▲ **DOWN STAND**

▲ **PENCIL ROUND**

▲ **DOUBLE CHAMFER  
(STANDARD FINISH)**

▲ **BIRD'S BEAK 20/20**

# FINISHING TOUCHES

Finishing touches are the little but important elements that finish your kitchen.

## Upstands

Not just for aesthetics, an upstand can also be handy to cover the gap between the worktop and an uneven wall.

## Splashback

The perfect alternative to tiling as a way to protect your kitchen from the daily assault of water, sauce splashes, and spitting oils.

## End Panels

A piece of worktop cut and placed against the last unit in the kitchen gives a stylish waterfall finish to your worktops.

## Window Sill

Window sills are one of the many options our customers go for when deciding on finishing touches to get a cohesive look across the kitchen.

# MORE FINISHING TOUCHES

## Trivets

Built in to the surface itself, a trivet helps keep your work surface protected from heat damage caused by pans straight off the hob

## Pop-up Socket

One of the main advantages of installing pop-up sockets in your kitchen is that you can use your wall-mounted plugs for everyday items.

## LED Groove

Under-counter lighting is easily installed and adds a unique style and subtle ambience to your kitchen.

## Wireless Charger

Our hidden wireless charging can charge your phone through the worktop - always handy in a pinch.

# CONTACT

Our dedicated sales team are on hand 7 days a week to answer any of your questions and queries.

Please don't hesitate to contact us today.
