nabis

fits perfectly

Fresh, innovative and beautiful

Your bathroom is special – it's where you go to rejuvenate and soak away the stresses of the outside world. That's why your new bathroom should be made into the perfect place for relaxing and unwinding. The Collection range by nabis offers a complete collection of bathroom products allowing you to design that perfect space.

48

HOURS

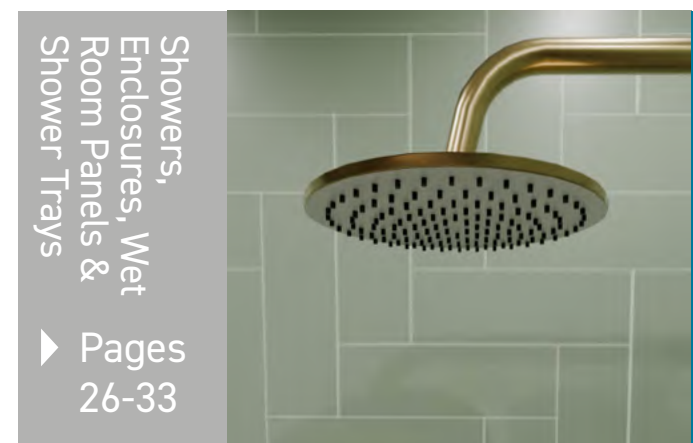

nabis offers a complete range of bathroom products so you can design your bathroom to your style and specification. Most nabis bathroom products are in stock and available to collect from any Plumb Centre branch in under 48 hours.

QUALITY
GUARANTEE

Our products are manufactured to the highest quality and are guaranteed against manufacturing defects. View individual product ranges for full details of specific product guarantees.

Whilst care has been taken to ensure that the information included in this brochure was accurate at the time of printing, we reserve the right to change specifications at any time. nabis

Bathroom suites

The nabis range offers a selection of great value bathrooms to suit all styles. Whether you're looking for a lavish room or a space-saving solution, every nabis suite can be tailored to your needs. Each suite comes with factory-fitted fittings to help achieve the perfect installation.

Why choose a nabis bathroom suite?

nabis bathroom suites are not only stylish but they're also high quality, reliable and great value for money so there's something for every taste and budget.

Style

Whether you like crisp straight lines or smooth curved edges, there's a nabis bathroom suite to suit your style. The nabis range combines form and function beautifully, offering stylish space-saving options such as 1- and 2-tap hole options allowing you the flexibility to choose your preferred style taps and wall-hung pans which can be installed at a height to suit your own personal needs.

Great value

Our special suite packs mean you can get everything in one go, making things easier for you and offering better value. Most products are in stock and available to collect in under 48 hours so you can be relaxing in your new bathroom sooner than you think.

Quality

nabis bathroom suites are exclusive to Plumb Centre and are all manufactured to the highest quality standards. We have market-leading guarantees, which cover a lifetime on our ceramics, so you can rest assured that you'll be getting a great quality, reliable bathroom suite from a name you can trust.

Full pedestal basin

A popular choice for cloakrooms and bathrooms. They attach to the wall, effectively hiding any pipework. Available in various styles and tap hole configurations, they are an excellent option for bathroom refurbishments that utilize existing plumbing.

Close-coupled WC

Features a visible pan and cistern, with the cistern positioned on the back of the floor-standing toilet pan. This design offers greater flexibility with pipework and is a suitable choice for most bathrooms.

Back-to-wall

Designed to fit closely against the wall, hiding the pipework behind them, they can either be close-coupled, with the cistern mounted on top of the pan, or feature a back-to-wall pan with a concealed cistern and a visible flush plate.

Wall-hung

A wall-hung pan requires a robust metal frame to support its weight, which is hidden within a stud wall. This setup includes a concealed cistern designed to work with a visible flush plate. Wall-hung bathroom fixtures also make floor cleaning significantly easier.

Lamone

Style and value come together, providing you with a range that can help cut your water usage, whilst adding simple elegance to your bathroom.

Tano

This range is defined by its clean, square design and contemporary feel. Offering a full choice of WC options, all designed to deliver both style and practicality.

Close-coupled pan, cistern and MDF slim soft-close WC seat

Pack Code:
E13448
Back-to-wall pan and MDF slim soft-close WC seat

Frames and flush plate

To achieve a streamlined look with a concealed cistern, the frame and cistern must be hidden within stud walls or custom-built wall extensions. The frame supports the weight of the suspended WC pan, while a concealed cistern is used with a floor-standing back-to-wall pan. These frames come in various heights to navigate obstacles like window ledges and are adjustable, allowing the pan to be mounted at different heights to suit users.

Modular furniture

nabis bathroom furniture offers a contemporary style designed to unlock the creative potential of any bathroom, whilst giving you additional storage capacity. Our modular solutions are available in a variety of styles, finishes and sizes to allow you to create that desired look for your dream bathroom.

What type of furniture?

If you're looking to give your bathroom that luxury feel whilst also looking for additional storage, we offer a complete range of modular bathroom furniture, which is functional and stylish.

Modular furniture

Supplied in modules designed to work either as stand-alone units or part of a set. Both wall-mounted 'floating' options and floor-standing options are available in most styles. Modular basins are also ideal for cloakrooms.

Modular furniture

Brando

Brando modular bathroom furniture presents you with stylish luxury without compromising on storage space and will complement any bathroom.

Baths and bath screens

The bath is the centrepiece of your bathroom, so it's important that it sets the tone and style as well as offering a practical solution. Whether you're looking for something spacious, intimate, or simply soothing, take a look through our range of single, double-ended and shower baths and you're sure to find your perfect choice.

What type of bath?

The nabis bath collection offers a range of baths that will look at home in any bathroom. With steel, single-ended and double-ended options available you're sure to find the right option for you.

Single-ended baths

The most common type found in many homes. The taps and waste are positioned at one end, providing a single backrest for comfort. These baths are perfect for fitting against a wall or in a corner and come in various sizes to fit different bathroom spaces.

Double-ended baths

Feature centrally located taps, either in the tub or on the wall, allowing both ends to be used as backrests. The waste is also centrally positioned in the tub.

Freestanding baths

Make a striking centrepiece in any bathroom. Modern designs are typically thin-rimmed, double-ended, and sit directly on the floor, while vintage styles often have slipper shapes or roll-top designs and stand on claw feet.

Shower baths

An excellent option for bathrooms with limited space, offering the convenience of both a shower and a bath. This style is ideal for those who want the flexibility of showering or bathing without needing separate fixtures.

Baths

Acrylic vs Steel

A Acrylic

- Most popular bath material throughout the UK
- Easy to transport and install thanks to its lightweight properties
- Good heat retention
- Excellent value for money and cost-effective
- Warmer (than steel) to the touch
- Non-porous: easy to clean and remove scratches

S Steel

- Commonly used throughout the UK
- Stronger and more durable than acrylic
- Resilient and almost impossible to scratch
- Whilst cold to the touch it's a great heat conductor
- Its chemical and UV light resistant properties prevent discolouring
- As a 100% recyclable material, steel is an eco-friendly choice

Showers

The nabis showers range offers a wide range of mixer showers in a variety of styles to suit most tastes. All of the showers have thermostatic temperature control for added safety and comfort and come with a 5-year warranty against manufacturer defects for added peace of mind.

Which mixer shower suits you?

Mixer showers draw from both hot and cold water supplies and usually deliver higher flow rates.

Single outlet bar valves

Ideal for homes with readily available hot water from a combi boiler or a large capacity hot water cylinder, the hot and cold water is mixed within the unit and the water is delivered through the shower.

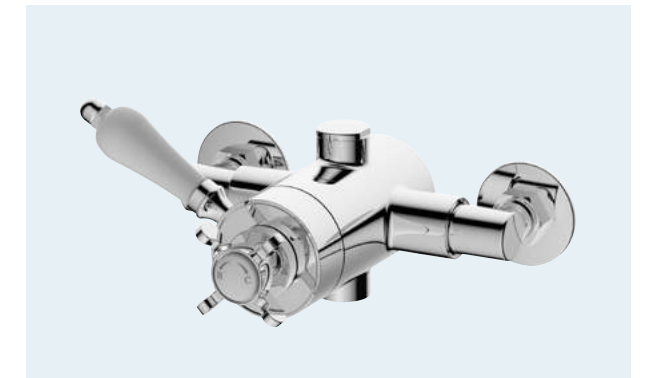

Dual outlet bar valves

Our exposed rigid diverter (ERD) showers are perfect for a more designer style and allow you to switch between an overhead shower and a handset.

Sequential mini valves

Sequential shower that has a single rotary control. You start the shower by turning the control and the more you turn it, the hotter the temperature.

Traditional mini valves

A traditional mini valve combining classic design with precise control for hot and cold water flow. Crafted with durable materials, it blends vintage elegance with reliable modern functionality.

The nabis bathroom range is exclusive to Plumb Centre.

nabis

Brassware

Complete the look of your bathroom with the stylish range of nabis taps. Whether you're looking for ultimate simplicity or something a little more sophisticated, nabis has the look that you're searching for. All nabis taps come with a 5-year guarantee and are suitable for low pressure systems.

Choosing the right taps

It's natural to think first about the bigger elements of your bathroom, but little things like taps can make a big impact on your finished space.

Pillar taps

A traditional design with separate hot and cold water taps. They work with two-tap hole basins and are simple and easy to use.

Mixer taps

Mixer taps are more popular than ever, as they deliver your ideal temperature combination in just one flow. They require one-tap hole basins and are a great solution for smaller spaces.

Bath fillers

Easily fill your bath tub with a bath filler. Most collections offer a variety of options to meet your needs and maintain a cohesive look throughout your bathroom. Deck-mounted bath taps are installed on your bath by drilling holes on its surface.

Bath shower mixer taps

Efficient way to get the best of both worlds. Installing a shower above your bath is a great space-saver and even allows you to rinse the bath after use. For a traditional look, fit the showerhead on top of the mixer taps, or hang it on a wall bracket for more modern, hands-free showering.

Modern taps

Alia

A modern single lever range designed with ease of use in mind.

nabis

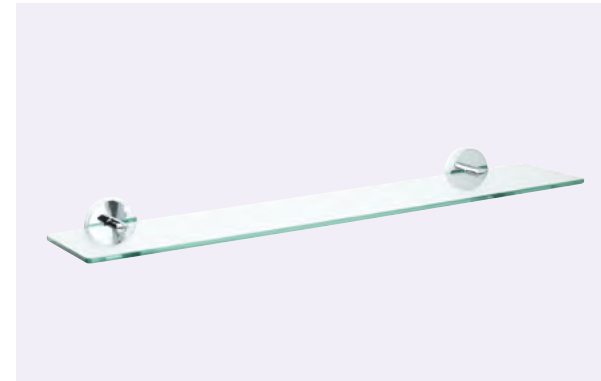

Finishing touches

nabis offers a wide range of bathroom accessories and mirrors for all those finishing touches.

Make your space your own

Creating an amazing bathroom means choosing the right accessories. We'll help you find accessories that not only make a statement, but also make life easier in the bathroom.

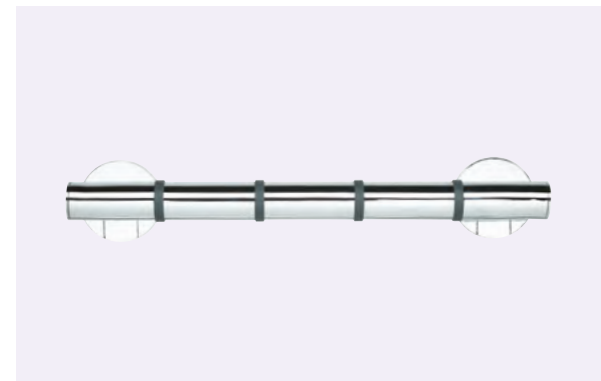

Glass shelves

Add beautiful glass shower shelves to provide storage for all those bathroom essentials like bottles or toothpaste. These glass bathroom shelves are a wonderful universal storage space.

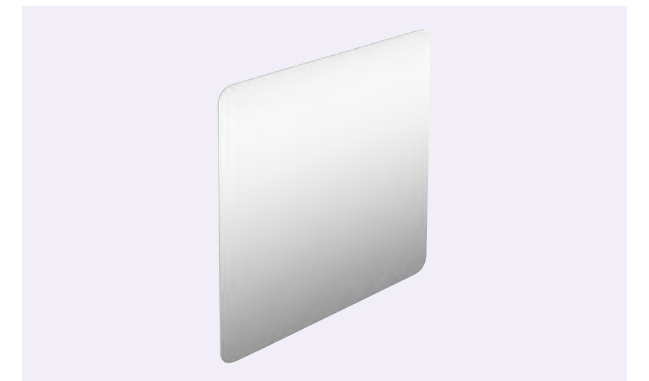

Toilet roll holders

An essential product in any bathroom or cloakroom, stylish toilet paper holders can also provide a finishing touch to your space.

Grab bars

Grab and grip rails provide additional comfort and support by preventing wet hands to slip on the rail.

Mirrors

A range of mirrors perfect for making small bathrooms feel bigger.
