GLAZING

DECORATIVE GLAZING

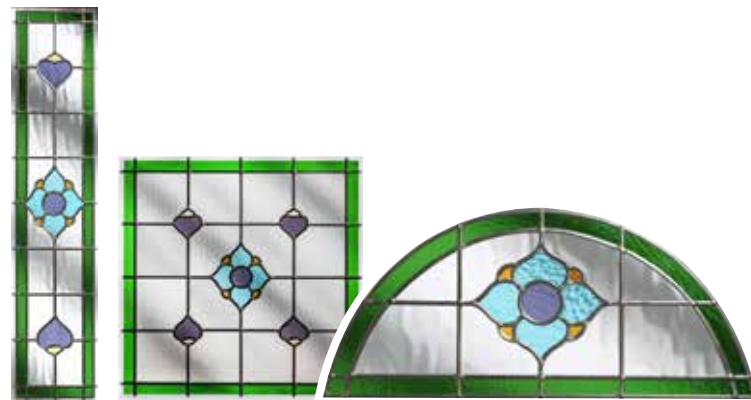

Victorian Border

An ideal balance of simplicity, elegance and functionality. The etched glass and simple border provide excellent privacy while allowing soft, diffused light to filter through for a clean and timeless look.

Mayfair

Offers a delicate aesthetic that celebrates a traditional etched pattern. It's elegant star motif and fine lines deliver a timeless sophistication coupled with a strong sense of privacy.

Dorchester

Beautifully coloured glass combined with blackened leadwork creates a striking visual effect that echoes the elegance of the Victorian era. This design offers a touch of traditional charm, seamlessly paired with the durability and performance of modern glazing.

BACKING GLASS

Satin glass provides exceptional privacy through its contemporary frosted etched design, while still allowing excellent light transmission, making it an ideal choice for both functionality and aesthetics.

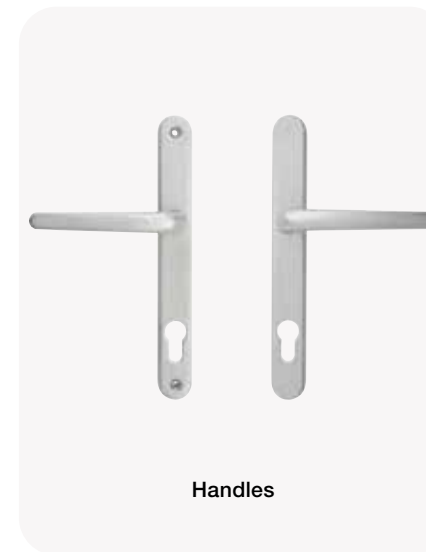

Stippolyte textured glass offers a high level of privacy with its distinctive patterned surface, while allowing ample naturally diffused light to pass through.

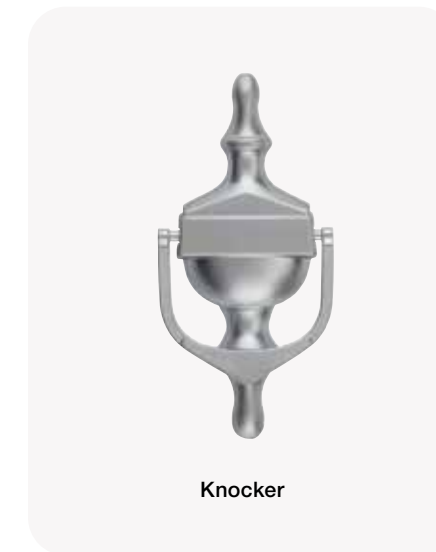

Minster glass features a subtle texture that offers a lower level of obscuration, making it ideal for maintaining a sense of openness.
